

MESSAGING ACROSS AFRICA

DEVELOPER API

Developer API Brochure

A clean REST API, native SMPP, signed delivery webhooks and official SDKs for Node, Python, PHP and Go.

◆ INTEGRATE IN MINUTES

Send your first message with a single authenticated HTTPS request. Use our REST API for app integrations, or bind over SMPP for high-throughput enterprise traffic. Delivery reports arrive as signed webhooks in real time.

◆ OFFICIAL SDKS

- Node.js
- Python
- PHP
- Go

◆ ENDPOINTS

Capability	How
Send single / bulk SMS	POST /v1/messages/send
Delivery reports	Signed webhook to your URL
Enterprise throughput	SMPP bind (transceiver)
Balance & pricing	GET /v1/pricing, GET /v1/balance

API keys use scopes and support test mode (esms_test_...) so you can build safely before going live.
