

MESSAGING ACROSS AFRICA

SECURITY

Security & Data Protection

Encryption in transit, strict access control, data-subject rights and IP allowlisting.

◆ HOW WE PROTECT YOUR DATA

- TLS encryption for all API and portal traffic
- Scoped API keys, 2FA (TOTP) and session controls
- IP allowlisting for SMPP binds and sensitive endpoints
- Signed delivery webhooks so you can verify authenticity
- Least-privilege internal access with full audit logging

◆ YOUR RIGHTS

Data export	On request Full account data export (GDPR-aligned)
Erasure	On request Right-to-be-forgotten workflow
Retention	Configurable Message content retention on request

We never sell your data or your recipients' numbers. Message content is processed only to deliver and report.
